

Dear Sir/Madam,

Greetings from the Trained Nurses' Association of India (TNAI)!

Subject: MoU Signing with Koita Foundation & Launch of Digital Health Foundation Course for Nurses (DHFC-N)

We are pleased to inform you that the Trained Nurses' Association of India (TNAI) has signed a Memorandum of Understanding (MoU) with the Koita Foundation on May 24, 2025, coinciding with the International Nurses Day celebrations.

Under this landmark partnership, TNAI will launch the Digital Health Foundation Course for Nurses (DHFC-N)—a pioneering, modular, and open-source program aimed at building digital health capacity among India's nursing workforce.

Developed in collaboration with the Koita Foundation and designed by leading nursing professionals across the country, DHFC-N will equip nurses with essential digital competencies, including:

- Use of Electronic Medical Records (EMR) and Hospital Information Systems (HIS)
- Clinical documentation and decision support
- Data analytics and digital privacy
- Interoperability with a focus on the Ayushman Bharat Digital Mission (ABDM)

This self-paced, free course will also offer Continuing Nursing Education (CNE) credits upon completion.

The DHFC-N initiative is a significant step forward in strengthening the digital readiness of our nurses and enhancing the quality and efficiency of healthcare delivery across India.

With kind regards,

Mrs. Evelyn P. Kannan
Secretary General, TNAI
