

THE TRAINED NURSES' ASSOCIATION OF INDIA

TNAI BULLETIN**VOL. 7 No. 6****JUNE 2018****Nurses Need to be Honoured All Days of the Year**

A tribute to Florence Nightingale, **International Nurses Day (IND)** was celebrated the world over (theme: *A Voice to Lead, Health is a Human Right*) on **12 May** appropriately. Apart from the annual Candle Lamp service in the Westminster Abbey, London by International Council of Nurses, the IND Kit 2018 was released.

In a function held at Cultural Centre, Rashtrapati Bhawan, New Delhi, on 12 May 2018, with the President of India Shri Ram Nath Kovind as Chief Guest, Shri JP Nadda, Union Minister of Health & Family Welfare conferred the Florence Nightingale Awards to 35 outstanding nurses and also delivered the presidential address. Congratulating the award winners, President said that nursing plays a very vital role in keeping the country healthy, "Any nurse, in a remote village, who is helping a person fight a serious illness, is a nation builder." Shri JP Nadda said that we are proud of all the winners and wish that they will be an inspiration for all the nursing personnel in the country and motivate them to provide quality nursing services and standards. The same evening i.e. 12 May, TNAI felicitated the awardees at Eros Hotel, Nehru Place, New Delhi arranged by INC. The awardees were felicitated by Mrs Anita Deodhar, President, TNAI, Mrs Surekha Sama, Vice President North Region, TNAI, Dr (Mrs) Bhargavi CN, Treasurer TNAI, Dr Rathi Balachandran, ADG Nsg., MoHFW Dr Asha Sharma, Vice President, INC and Mrs Ranjit Kaur, Secretary, INC.

दूध की नदियों के देश को आयात करना पड़ेगा दूध

बढ़ती आय और जीवनस्तर में बेहतरी के चलते देश में दूध की खपत लगातार बढ़ रही है। इसी के साथसाथ कई तबकों में दूध के सेवन को घटाने की पुरजोर अपील के बावजूद सवाल उठ रहे हैं कि दूध की आपूर्ति आगे कैसे होगी। इसका एक कारण है ज्यादातर छोटे पशुपालकों के लिए खुले चरावाह के इलाके खत्म हो रहे हैं और चारा मिलने में किल्लत हो रही है। स्टेट ऑफ इंडियाज की रिपोर्ट के अनुसार वर्ष 2020 में 210 मिलियन टन दुग्ध उत्पादन का लक्ष्य हासिल करने के लिए मौजूदा 900 मिलियन चारा उत्पादन को बढ़ा कर 1764 मिलियन टन तक ले जाना होगा।

शरीर को संतुलित, पूर्ण पोषण प्रदान करने में दूध की भूमिका निर्विवाद है। प्राकृतिक दूध में शरीर और मन को दुरस्त रखने के सभी घटक इसमें मौजूद हैं: कैल्शियम, मैग्नेशियम, जस्ता, फॉस्फोरस, आयोडीन, लौह, पोटेशियम, फोलेट, विटामिन ए, विटामिन डी, रिबोफ्लेविन, प्रोटीन, विटामिन बी 12, वसा आदि। सभी प्रकार के एमिनो एसिडों व फ़ैटी एसिडों के कारण उच्चस्तरीय प्रोटीनों से युक्त होने से यह तुरंत ऊर्जा प्रदान करता है। विभिन्न शोधों से स्पष्ट है कि दिन में तीन बार निम्न फ़ैटयुक्त डेरी उत्पादों के सेवन से रक्तचाप उचित रहता है। दूध के नियमित सेवन से दिल की बीमारियों की आशंका घटती है, हड्डियां दुरस्त रहती हैं तथा ऑस्टियोपोरोसिस का खतरा घटता है। कैल्शियमयुक्त होने से दूध व डेरी उत्पादों से वजन नहीं बढ़ता और मोटापा नहीं आता। अध्ययन बताते हैं कि गर्भावस्था के दौरान जो महिलाएं दूध, पनीर व अन्य डेरी उत्पादों का नियमित सेवन करती हैं उनके शिशुओं के भ्रूण का बेहतर विकास होता है तथा बच्चों के दांत बीमारियां से मुक्त व दुरस्त रहते हैं।

हर किसी के जीवन में प्राकृतिक दूध और दुग्ध उत्पादों के स्रोतों और इसके पोषणिक महत्व के बाबत जागृति बढ़ाने और दूध व दुग्ध उद्योग के कार्यकलापों के बाबत जानकारी के प्रसार के मकसद से खाद्य व कृषि संगठन (एफ.ए.ओ.) 2001 से प्रतिवर्ष पहली जून का दिन विश्व दुग्ध दिवस के रूप में मना रहा है। चूंकि यह संतुलित, संपूर्ण वैश्विक खाद्य पदार्थ आहार है, अतः इसके निर्माण और सेवन को प्रोत्साहित करने के आयोजन करता है। दुग्ध उपभोक्ता संघ, निर्माता और कर्मचारी इन आयोजनों में सक्रिय भागीदारी करते हैं।

Your Updated Mailing Address Required at TNAI HQrs

Important information to all Members:

You may receive copies of *TNAI Bulletin* only after submitting the complete mailing address afresh!

We have been observing for quite some time that copies of *TNAI Bulletin* are not reaching the proper persons for many reasons, mainly because the address in TNAI records is not got updated by the subscribers with their change of residence. In many instances, the subscribers furnished the Institute's address where they last studied and it was never got changed later. This leads to massive wastages.

It has therefore been decided to follow a reverse strategy, by mailing copies of *TNAI Bulletin* only to those members who submit their addresses again. All the members are now requested to kindly furnish their latest address afresh, including the PIN code of the area and also indicate their email ID. Following format may kindly be adopted:

DISRESPECT & ABUSE DURING MATERNITY CARE SERVICES

Causes and Recommendations

Women's experiences with maternity caregivers can empower and comfort them, or inflict lasting damage and emotional trauma. A woman's positive or negative memories of childbearing experiences stay with her throughout her lifetime. Women who experience disrespect and abuse are less likely to seek skilled health care in the future.

Studies shows that violating women's rights during childbirth leads women to distrust health care providers and facilities. These women are not only less likely to seek out maternity care - such as postnatal and emergency obstetric care—but other health services as well, such as family planning.

What Causes Disrespect & Abuse during Maternity Care Services?

The contributing factors to the disrespect and abuse faced by pregnant women can be broadly categorized into three categories:

Health System

- ❖ Work culture normalizing D&A
- ❖ Lack of awareness of patient's rights, gender sensitization, clinical empathy skills and humanism among health care providers.
- ❖ Lack of communication and interpersonal skills of health care providers.
- ❖ Health Care Providers' prejudices based on specific patient attributes
- ❖ Inadequate infrastructure leading to poor working environment
- ❖ Staff shortages leading to high stress
- ❖ Poor supportive supervision
- ❖ Weak implementation of standards and quality of care guidelines

Individual and Community

- ❖ Acceptance of disrespect and abuse as 'normal'
- ❖ Poor birth preparedness
- ❖ Lack of autonomy & empowerment of women
- ❖ Low socio-economic status of women

Policy and Governance

- ❖ Lack of laws, policies, enforcement and legal redress.
- ❖ Lack of awareness and implications of international conventions and guidelines
- ❖ Lack of accountability mechanisms for redressal
- ❖ Insufficient funding for maternal health care

How to Address Disrespect & Abuse during Maternity Care Services?

Successful efforts to promote RMC must consider and address the systems, structures, attitudes, and behaviors that are generating D&A within a given environment. Combating disrespect and abuse requires concentrated effort across sectors

Facility Level:

- ❖ Observe a 'zero-tolerance' rule for all forms of disrespect and abuse in the facilities.
- ❖ Allow a birth companion to be present with the women during labour and delivery.
- ❖ Training for service providers on interpersonal skills, clinical empathy, patients' rights, behaviour, communication and gender sensitivity.
- ❖ A robust accountability mechanism which includes proper redressal mechanisms.
- ❖ An enabling environment for service providers to provide RMC. This includes provision of infrastructure (bed, screens for privacy, hygiene, medical supplies, blankets etc); adequate number of healthcare personnel to lower provider: patient ratio and; supportive supervision.
- ❖ Implementation of quality of care protocols, standards and guidelines such as the LaQshya - Government of India's initiative to improve quality of care in labour rooms of public health facilities across India. Ensure effective and timely implementation of LaQshya, especially the RMC indicators.

Policy Level:

- ❖ Making RMC an integral component of all maternal health policies and programs.
- ❖ Inclusion of RMC in training and curricula of health care providers.
- ❖ Monitor and assess RMC as part of all national and state-level quality assurance guidelines and protocols.
- ❖ Ensure a good working infrastructure (beds, screens, hygiene, medical supplies, blankets and sheets) and adequate number of service providers (doctors, nurses) to create an enabling environment for health care services be given with dignity and respect

Community Level:

- ❖ Overcome normalization of disrespect and abuse by enabling the community to expect and demand for RMC as their basic right.
- ❖ Promotion of birth preparedness among women and communities.
