## TNAI Enters into a New Domain of Recruiting Nurses for International and Domestic Markets

Education, training and skill upgradation of nurses, besides overseeing that their working conditions are congenial & proper, and that they are not harassed, victimised or subjected to unfair practices – and help secure them their rightful dues through appropriate interventions, has ever been the focus area of TNAI. As per its mandate, a major objective of Association is “to provide socio-economic welfare to Nurses in the country”. After receipt of complaints from some quarters, the TNAI had earlier taken the lead against low salaries being paid to nurses in certain States by filing writ petition in Supreme Court; consequently, the apex court issued necessary advice to Ministry of Health & Family Welfare (MoHFW) for fact finding through constitution of a Committee. Recommendations of the Committee vide order No.Z-29011/15/2013-N dated 24/02/2016 approved by the Competent Authority was forwarded to all the States/UTs for formulating the legislation/guidelines to be adopted in respect of Nurses working in private hospitals/institutions.

A novel venture that TNAI took up is the career of nurses seeking employment overseas. Foray into recruiter's role is a historical initiative of Association to address an emerging issue. Concerned at the unfair practices of unscrupulous recruiting agents, nurses – particularly the young pass-outs, had been apprehensive about their careers, whether within India or Abroad. Many of the recruiting agents had been charging exorbitant sums and at times, cheating the credulous applicants. Given the reserve of expertise, infrastructure and above all the will to have fair deal for career seeking nurses, TNAI had been liaising with Ministry of External Affairs (MEA), Government of India, to serve as an approved agency for recruitment and deployment of nurses, since February last year.

I am very happy to share with you that the MEA, through a communication, has recently approved

TNAI as registered Recruiting Agency under the Emigration Act, 1983. After some formalities are completed, the Recruitment Cell of TNAI shall work in full swing, bringing much needed respite to the nurses aspiring to seek foreign and domestic placements.

As you are aware, the next SNA Biennial Conference on the theme, *Empowering Nurses through Advanced Technology* being hosted by TNAI Andhra Pradesh is being held during 29 November to 3 December at Guntur. The various Competition Registration forms for participation in different activities of Conference are available at pages 98-100 of this issue. I urge you to take timely action for getting yourself registered for participation in the different competitions sessions to avoid last minute hustle.

## EVENTS OF THE MONTH

### Doctor's Day: 1 July

In India, Doctors' Day is celebrated on 1 July (in US it is 30 March) with a view to acknowledge the valuable contribution of physicians they make in upkeep and maintenance of health of citizens of the country. In many communities the world over doctors are given a status at par with Gods as they infuse life in the moribund. In our country, Doctor's Day was observed in 1991 to pay homage to Dr Bidhan Chandra Roy, who continues to be remembered for his active involvement in establishing several institutions and hospitals for well being of the society. While yet a student, Dr Roy is said to be deeply moved by an inscription that deeply moved him at medical school in Calcutta in June 1901, "Whatever thy hands findeth to do, do it with thy might."

### World Hepatitis Day: 28 July

Hepatitis is a viral inflammation of the liver caused by transmission through various channels: contaminated food or water, blood or other body fluids. However, many people - including health policy makers are unaware of its staggering toll on global health. Viral hepatitis, a leading cause of death, accounts for 1.34 million deaths yearly; together, hepatitis B virus and hepatitis C cause 80 percent of liver cancer cases in the world. The symptoms of acute hepatitis include fever, fatigue, jaundice and loss of appetite. Prevention strategies include: better awareness and using blood services and injection safely.

On 28 July every year, World Hepatitis Alliance celebrates World Hepatitis Day (WHD) towards creating awareness about curbing hepatitis infection through various activities. This Day presents an ideal opportunity to join together and raise the profile of viral hepatitis among the public. Cure for hepatitis C, the elimination of viral hepatitis is achievable, but greater awareness and understanding of the disease and the risks is a must.

The WHD theme for 2017 is, Eliminate Hepatitis. Presently, 90 percent of people living with hepatitis B and 80 percent living with hepatitis C are unaware of their condition. Such persons can also be victim of fatal liver disease later in their lives and can also unknowingly transmit the infection to others. Viral hepatitis has been included in the Sustainable Development Goals (SDGs).

### International Cooperative Day: 1 July

Around the world, cooperatives celebrate the United Nations International Day of Cooperative (IDC) on first Saturday of July, in 2017 it is on 1 July. The theme of 2017 is, Inclusion that was selected by the Committee for the Promotion and Advancement of Co-operatives (COPAC). "Co-operatives ensure no one is left behind", is the slogan of the 2017 International Day of Co-operatives, which implies that nature of cooperative ventures has to be people-focused. It is also the founding principle of a co-operative. Co-operatives offer a platform where people, regardless of racial, gender, cultural, social or economic affiliations, can meet their needs towards building better communities. The theme will be further addressed at the Alliance's Global Conference in Kuala Lumpur (Malaysia) on 15-16 November 2017, with focus on 'Putting people at the centre of development'.

## सेहत के रखरखाव का भारी जिम्मा है डाक्टरों पर!

देश में डाक्टरों की भारी किल्लत, प्राइवेट अस्पतालों की बगैर मोटी रकम एंटे मरीजों के प्रति बेरुखी, सस्ते इलाज को तरसते गरीब मरीज आदि कारणों के चलते समूचा स्वास्थ्य तंत्र चरमरा रहा है। मरीज जाएं तो कहाँ? डाक्टरों की तबका यदि मरीजों का हमदर्द बनने का मन बना ले वो वाहवाही लूटेगा जिसकी उसने कल्पना भी नहीं की होगी। यह भी तय है, उसकी आमदनी भी जरब न होगी।

योग्य, प्रशिक्षित चिकित्सकों की हमारे देश में भारी किल्लत है, प्रति दो हजार जनसंख्या पर मात्र एक डाक्टर है जबकि विश्व स्वास्थ्य संगठन के मुताबिक प्रति हजार पर एक डाक्टर चाहिए। दूसरे शब्दों में, देश में जितने डाक्टर हैं उतने ही और चाहिए और ऐसा सुदूर भविष्य में होना नामुमकिन है। कारण – पहले तो मेडिकल कॉलेजों चलाने के लिए बहुत मोटा निवेश तथा अन्य संसाधन चाहिए होते हैं। दूसरा, देश में शिक्षित-प्रशिक्षित होने के बाद भारी संख्या में डाक्टर देश, घर, परिवार को ढेंगा दिखाते मौका मिलते ही विदेशों का रुख ले लेते हैं।

सरकारी अस्पतालों का आलम यह है कि एक अनार सौ बीमार। परामर्श चूंकि लगभग मुफ्त में मिलता है, एक डाक्टर के पास रोजाना सैकड़ों मरीज देखने का दबाव होता है और वह मरीजों को उचित समय नहीं दे पाता। इसके अलावा निदान के उपकरण अक्सर खराब पड़े रहते हैं और मरीजों को प्राइवेट केंद्रों में जाना पड़ता है। निजी चिकित्सक या प्राइवेट अस्पताल हर स्टेज में नोट खसोटते रहने में मशगूल रहते हैं। कुल मिला कर जनस्वास्थ्य के साथ खिलवाड़ जारी है। मुनाफे का पहिया तेजी से घूमता रहे इस आशय से कई बड़े अस्पतालों के वरिष्ठ पदों पर मार्किटिंग एक्सपर्ट नियुक्त किए जाने लगे हैं। दर असल ज्यादातर बड़े अस्पताल कॉर्पोरेट रोगियों या इंश्योरेंस कंपनियों के बंदोबस्त चल रहे हैं, उन्हीं के बूते वे अपने फलफूल भी रहे हैं। रोगियों पर अनेक खर्चीले परीक्षण किए जाते हैं जो आवश्यक नहीं होते। इनका विपरीत प्रभाव रोगियों की दीर्घकालीन स्वास्थ्य पर पड़ता है। दवाओं का बाजारीकरण दूसरी आफत बन है। डाक्टरों द्वारा जरूरत से ज्यादा दवाएं संस्तुत करने, जेनेरिक दवाओं के बदले ब्रांड नाम लिखने जैसी प्रथाओं को रोकने के लिए विश्व स्वास्थ्य संगठन और हालिया भारत सरकार ने हिदायतें बेशक जारी की हैं किंतु ये प्रयास नाकाफी हैं। दुखद यह है कि सरकारी तंत्र प्राइवेट अस्पतालों के नापाक तौरतरीकों पर अंकुश लगाने में कारगर नहीं सिद्ध हो रहा है।

ज्यादा अरसा नहीं गुजरा, डाक्टरों को प्राणरक्षक के रूप में उन्हें ईश्वर के समान समझा जाता था। डाक्टरों के प्रति कृतज्ञता स्वरूप विभिन्न देशों डाक्टर दिवस मनाने की प्रथा अलग-अलग दिन है; हमारे देश में यह दिन 1 जुलाई है। इस दिन सुविदित चिकित्सक, शिक्षाशास्त्री, समाज सुधारक व राजनेता डा० बिधान चंद्र राय की जन्मतिथि और पुण्यतिथि दोनों पड़ती हैं। अनेक अस्पतालों-संस्थानों की स्थापना के साथसाथ समाज सुधार के क्षेत्र में विशिष्ट योगदान के लिए उन्हें भारत रत्न से सम्मानित किया गया था।

कुछ डाक्टरों की मुनाफाखोरी की प्रवृत्ति के कारण समूची डाक्टरी जमात पर प्रश्नचिन्ह लगने लगे हैं। कम ही डाक्टर हैं जो खुल कर रोगी पर चल रही प्रक्रिया की उचित, समूची जानकारी रोगी या उसके सहायक को देते हैं। मसलन बीमारी के कारण व स्वरूप, दी जा रही दवा की कार्यप्रणाली और प्रभाव, दी जा रही दवा या प्रक्रिया के विकल्प आदि के बारे में खुल कर नहीं बताना, बस एक कागजी सहमति ले लेना, आदि। ऐसा करना चिकित्सकीय संहिता का उल्लंघन है। डाक्टरी जनसेवा का पेशा है। मार्टिन फिशर की कम समय में कमाई चाहने वाले डाक्टरों को हिदायत है कि जल्द समय में ढेर कमाई चाहने वाले इस पेशे से दूर रहें, "उन्हें सातों दिन रोजाना 18 घंटे कार्य करने के लिए तैयार रहना चाहिए और यदि आप ऐसा नहीं कर सकते तो इस पेशे को छोड़ दें।"

मरीजों के प्रति हमदर्दी रख कर और निष्ठा से उपचार करने पर डाक्टर जनसेवा में महान योगदान दे सकते हैं।

# Women Want Respectful Maternity Care

*Respectful Maternity Care is a universal human right that is due to every childbearing woman in every health system around the world. It is necessary. It is achievable. It is everyone's responsibility.*

Research focusing upon the effects of disrespect and abuse within maternal health care demonstrates that poor quality of care can significantly decrease a woman's utilization of skilled health care services. This might mean that a woman seeks out a traditional birth attendant who may use unsafe practices to deliver her baby. It also may prevent women from receiving the necessary antenatal, care and counselling necessary to ensure a safe birth and healthy baby. Disrespect and abuse affects not only the health of the mother, but also her child.

It is therefore crucial to understand what quality of care means actually means to women. '**Hamara Swasthya, Hamari Awaaz**' (**My Health, My Voice**), a campaign run by **The White Ribbon Alliance India (WRAI)** attempted to do just that. This campaign reached out to about to 1.43 lakh women in India to understand what they would need for quality maternal healthcare. The women were asked to list one wish which, according to them, would improve reproductive and maternal health in the country.

The findings, when analysed, indicate that a sizeable **36% of the women have asked for access to maternal health entitlements, services and supplies**, followed by **23% women who seek services provided with dignity and respectful care**. **20% of the women seek availability of health providers while 16% seek clean and hygienic health facilities.**

Analysis highlights that **2 out of every 10 women** who participated in the campaign desire respectful behaviour by health providers; no caste or religion-based discrimination; one bed per woman in a ward; a birth companion during delivery; privacy and confidentiality during check-ups and treatment; fixed visiting hours and a visiting room to ensure privacy; complete information and counselling; clean toilets and labour rooms; availability of skilled doctors, specialists and frontline health workers among others.

## What Women Want

- ◆ "I want Respectful Behaviour"
- ◆ "I want that every staff of hospital should be polite, empathetic and not abusive".
- ◆ "I want a clean facility."
- ◆ "I want wall display of my entitlements"
- ◆ "I demand that the culture of asking money 'for sweets' must be stopped"
- ◆ "I want that availability of medicines must be ensured at all government health centres"

## Responding to What Women Want: A Call for Action

- ◆ Commit to zero tolerance for abuse, to ensure that women receive respectful care without discrimination and abuse
- ◆ Incorporate respectful care in Quality Assurance Guidelines and adopt the Respectful Maternal Care (RMC) charter
- ◆ Create a cadre of professional midwives and ensure 24x7 availability of skilled doctors and specialists
- ◆ Invest in generating awareness to ensure that all entitlements are known and accessed by women
- ◆ Improve time bound payments to ensure that women fully access the entitlements
- ◆ Strengthen monitoring mechanism to track dispersal of all entitlements
- ◆ Form Swachh Bharat Abhiyan flying squads to conduct surprise visits to check cleanliness and hygiene in toilets, wards and labour rooms
- ◆ Make display of free services and supplies mandatory at facilities to ensure easy access to information

Disrespect and abuse during maternity care are a violation of women's basic human rights.
